

38th International Symposium of the North American Lake Management Society

Now Trending: Innovations in Lake Management

The Ohio Lake Management and Indiana Lakes Management societies are excited to welcome NALMS to the Midwest's "Queen City," Cincinnati, Ohio. On the shores of the mighty Ohio, the river was impounded to serve modern navigation; those impoundments now function like a series of lakes. Cincinnati is also home to a burgeoning craft-brewery industry that is certain to be one focus for conference outings. With Thomas More College's field station, active urban reservoir projects, and Environmental Protection Agency research facilities nearby, we'll find plenty to see, do, learn. Our region is also bordered by the Great Lakes to the north, and our conference theme is well served by recent cutting-edge efforts to understand and mitigate western Lake Erie's press-grabbing eutrophication issues.

Join us at one of the nation's most opulent masterpieces of art-deco architecture, the award-winning Hilton Netherland Plaza, a short walk from sessions at the convention center.

Potential Topics: Monitoring Technologies, Autonomous Sampling, Remote Sensing, Large Data Sets, Toxins in Source Waters, Nutrient and Water-quality Management, Utilizing Citizen Science, Harmful Algal Blooms, Great Lakes, Interbasin Water Management, Combatting Invasive Species, Riverine Impoundments as Lakes, Environmental DNA, Geospatial Applications

Propose a session or topic! Call for papers will be available at nalms.org in January 2018

For sponsorship or general information, contact NALMS: nalms.org, 608-233-2836

For other details, contact conference co-chairs David Culver (culver.3@osu.edu), Eugene Braig (braig.1@osu.edu), or Sara Peel (speel@arionconsultants.com)

**October 30 through
November 2, 2018**

**Hilton Netherland Plaza
and
Duke Energy
Convention Center**
